## IMPACT ENVIRONMENTAL GROUP

*Innovative Solutions for a Sustainable Tomorrow*

As the leading supplier of waste containers, spares and accessories, refurbishment provider of all metal waste containers, and manufacturer of compactors and balers, Impact Environmental Group (IEG) is your single source for all waste and recycling containment needs.

Whatever your requirements, IEG offers the largest and most diverse range of products in the UK. With fast turnaround on dispatch from order processing and an extensive stock of parts and accessories, IEG supplies high-quality and cost-effective products, manufactured and quality-controlled in our factories.

IEG is committed to environmental sustainability across its entire product and services range, supported by our internal and external environmental and manufacturing initiatives.

The IEG team, with its nationwide factory locations, is committed to providing its clients with customer service excellence. Ensuring the vast majority of our products are delivered to the right specification, on time; and always being there to advise on customer needs, requirements and queries.

IEG is dedicated to delivering industry-leading quality products and services comprising a suite of innovative and cost-effective solutions integrating the latest technology, with class-leading design and manufacturing. Our pioneering offering includes rodent-proof plastic rotary moulded products, new IoT control systems across our compactor and baler range providing live performance data and improved customer service, and budget-friendly rental options available across our range of compactors, balers, and 4-wheeled steel containers.

Our secure supply chains ensure we protect business continuity, whilst achieving the best value. Our products and services are designed to achieve maximum lifetime cost efficiency, through robust manufacture, refurbishment, and spares options. On the rare occasions when problems do occur, we are proud of our strong record of prompt, first-time fixes delivered by our nationwide, in-house team at customers' premises.

## IMPACT RENTALS

*Smart, Flexible, and Cost-Effective Solutions*

We're expanding our hugely successful Compactor and Baler rentals to our full suite of products, including:

- ✓ Full suite of CONTINENTAL bins and housings
- ✓ State of the art Compactors & Balers

# COMPACTORS & BALERS

At IEG Barnsley

*Efficient and reliable service provider  
for waste producers and collectors*

IEG Compactors and Balers manufacture and service waste compactors and recycling balers acquired through rental contracts as well as upfront purchases. Custom-made, the compactors and balers are constructed using high-grade materials, boosting longevity and helping reduce downtime.

The business offers a market-leading service and maintenance offering; undertaken by a nationwide team of in-house, field service engineers, it strives for a highly efficient and effective 24-hour response time.
